

21.01.2012 | PRESS RELEASE

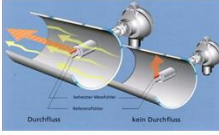

Binder more than 30 years success in gas flow measurement, monitoring and control

Binder Group has been working successfully in very different markets and is specialized in gas flow measurement, monitoring and control. Main markets are beside all kinds of industry are sewage treatment, landfill and biogas market. Binder Group collected a lot of experience in the last decades. Special control strategies for the improvement of biological processes and reduction of energy consumption in sewage treatment plants could be developed.

BINDER ENGINEERING

Digester gas flow measurement and analysis

at the digester
in front of the flare
in front of the boiler / CHP
with integrated humidity correction
for direct measurement of standard m³/h

mobile analysis
stationary analysis
„2-in-1-solution“
